

## **Delivery Information**

### **Delivery information:**

Below you will find all information regarding the delivery of products ordered through Fasna Fly Fishing

### **Addresses in the Netherlands:**

Ordered on working days before 3 pm, delivery within 2/3 working days. (if product (s) are immediately available, see webshop)

### **Addresses in Europe, outside the Netherlands:**

Ordered before 3 p.m. on working days -> delivery within 2 to 7 working days, depending on the destination country. (if product (s) are immediately available, see webshop)

### **Above 75 euros free shipping:**

You will also find this information automatically in the shopping cart. With an order above 75 euros, the shipping costs will automatically be canceled.

### **Packaging:**

All products are neatly packaged and shipped in a bubble envelope or cardboard box.

### **Available within x weeks:**

It is possible that a product is only available within x number of weeks (or days). This is then clearly stated in the webshop (and of course on the invoice, which you will receive by e-mail). If you order such a product, you will have to pay in advance and the order will not be shipped until the product has been received by us. Of course you will be notified when the product has arrived and is shipped to you. If the order consists of both products that are immediately available, and products that have an x number of weeks delivery time, the order will be split. The immediately deliverable products are shipped immediately, the rest will follow later.

Incidentally, you only pay the shipping costs once! (if the order is less than 75 euros, otherwise free)

Out of Stock:

It is also possible that a product is sold out. Then they are not available at that time and you will have to wait until they are available again. For this it is possible to contact Fasna Fly Fishing
